Pipe Cleaner Halloween Crafts

Elegant Black Roses, Rust Daisies & Spider Web Flowers — No Glue

COST

\$2-5

TIME

5-8 min/flower

DESIGNS

3

GLUE NEEDED

None

myflowerdecor.com | by Janet

What You Need

Materials

- Black pipe cleaners — for roses and stems
- Deep orange, burnt orange, or rust pipe cleaners — for daisies
- Purple or deep violet pipe cleaners — for the accent flower
- Dark green pipe cleaners — for stems and leaves
- Thin black or silver thread — for the spider web accent (optional)
- A black vase, ceramic pot, or mini pumpkin as a container

Total cost: \$2–5 · Time: 5–8 minutes per flower

3 Halloween Flower Designs

1. The Black Rose

- 1 Twist one end of a black pipe cleaner into a small, tight spiral — this is the rose's core.
- 2 Wind the rest of the pipe cleaner around the spiral, bending gently outward to shape petal curves.
- 3 Attach a second black pipe cleaner at the base and wrap it more loosely, for volume.
- 4 Twist the base tightly, then attach a green or black pipe cleaner as the stem.

2. The Rust Daisy

- 1 Fold an orange pipe cleaner in half, then twist small loops (~3 cm) along its length — 3-4 loops per pipe cleaner. Use 3 pipe cleaners for 10-12 petals.
- 2 Arrange into a ring and twist the bases together at one central point.
- 3 Coil a small piece of black or dark brown pipe cleaner into a flat spiral and attach it in the middle.
- 4 Attach a dark green or black pipe cleaner as the stem.

3. The Spider Web Accent Flower

- 1 Make any simple loop flower (daisy or wildflower shape) in deep purple or black.
- 2 Wrap a few strands of thin black or silver thread loosely across the petals in a web-like crisscross pattern.
- 3 Optional: twist a tiny 4-legged black "spider" from a pipe cleaner scrap and perch it on a petal edge.

Good to know: All 3 designs use the same core twisting techniques as regular pipe cleaner flowers — just swap the colors.

Halloween Color Palettes to Try

Classic Spooky — black + burnt orange + deep purple

Elegant Gothic — all-black monobouquet with one deep red rose as accent

Witchy Garden — dark green + black + a touch of mustard yellow

Pastel Halloween (for kids) — lavender + soft orange + white, a gentler take

Where to Display Your Halloween Flowers

Mantel Arrangement

5-7 stems in a black vase or cauldron-style pot.

Mini Pumpkin Vase

Hollow out a mini pumpkin, push stems into floral foam inside.

Wreath Accent

Attach 3-5 flowers to a plain twig or grapevine wreath base.

Table Centerpiece

Combine with dried wheat stems or black candles.

Tips for an Elegant (Not "Craft-Store") Look

Stick to 2-3 colors max — black, one accent color, and dark green. More looks busy, not elegant.

Vary stem heights in an arrangement — uniform heights look flat.

Add dried wheat or faux branches alongside your flowers for a more sophisticated finish.

For a kids' version, lean into brighter oranges and purples rather than all-black.

FAQ

Can I make these without glue?

Yes — every flower and the spider web accent are made purely by twisting.

Are these safe for kids to make?

The daisy and simple loop flower suit ages 5+. The rose (tighter twisting) is easier for ages 8+.

What's the fastest design to make?

The rust daisy — about 5 minutes once you've made one or two. Great for making in bulk.

My Halloween Flower Checklist

☐ I made a black rose

- ☐ I made a rust daisy
- ☐ I made a spider web accent flower
- ☐ I picked my color palette
- ☐ My Halloween arrangement is on display!
